

The City Society of Early Education and Child Care (CSEEECC)

October 2018 report for MSCCA

Provider Day

I was the co-chairman of Provider Day in partnership with the Moravia Park Judy Center. MSCCA and Becker's School Supplies helped to sponsor the event. There were 30 community providers that participated. Chris presented the benefits of being a MSCCA member.

First meeting of the school year

We had a great first meeting where we discussed all of the information that was presented at the Fall Symposium. We participated in a social-emotional make-a-take project. The group has decided to move the location of the monthly meetings around Baltimore City visiting a variety of programs. The location of our next meeting will be announced upon confirmation.

STEAM Back Pack Series

I participated in the group on October 13th where the group explored Irvine Nature Center. The center has free story time and activities for groups on Friday mornings. www.explorenature.org

Director's Institute in PG County

I will be speaking at a conference on October 23. The conference will focus on special needs students, specifically students with autism. They will be showing "Side by side with Jayla."

Moravia Park Judy Center Steering Committee

I will be participating in the steering committee on October 25. We are collaborating on developing literacy activities to meet school readiness goals.

OCC Round Table

The meeting will be held on Nov. 17 from 1:30-3:30 at the Hamilton Library, 5910 Harford Rd., 21214. I will be setting up a table to provide chapter information.

Wellness Conference

The conference will be held on Nov. 3 @ Johns Hopkins University Homewood Charles Commons Conference Center from 8:00-5:00pm. I will be setting up a Chapter table at the conference to provide information.

Licensing Training

Lacey from Maryland Family Network asked me to provide staged pictures of child care violations alongside a positive activity taking place in a child care center. She wants to change the thinking of the specialist walking into a program. She wants them to see that their first reactions will be to identify the violation and not see what good things are taking place. She is hoping to bring this to light so that the specialists are seeing the good things in programs to build a relationship with providers.

Next meeting

November 14th @ 7pm Meeting location will be announced.
