Christina Peusch  
Executive Director  
Maryland State Child Care Association

Dear Ms. Peusch:

Thank you and your providers for reaching out to our office this week regarding the Maryland State Department of Education Child Care Stabilization Grant funds. We understand how difficult this process has been, and the impact any delay in funding might have on your members.

The Comptroller's Office is in receipt of the listing of providers who have applied for this grant program. Over the next several days, we will make certain that all address changes and/or banking changes submitted by the providers on the list are processed expeditiously. The Comptroller's office may or may not be in touch with providers if we need additional supporting information to validate requested changes. The providers can assist in this effort by responding and returning whatever documentation is requested. Once MSDE submits the grant payment request, we will process the request as quickly as possible.

I encourage you to share this with all MSCCA members so there are no delays once payment requests are received from MSDE. We will be in touch if we have further information to pass along. Thank you for your advocacy on behalf of your providers and please do not hesitate to reach out should any other payment issues arise. I can be reached directly at 443-955-0223 or [moprey@marylandtaxes.gov](mailto:moprey@marylandtaxes.gov).

Sincerely,

Maureen O'Prey  
Public Relations Manager
